

## The Photographer's Guide to Etosha National Park

Mario Fazekas, Kathryn Haylett, Jenny Fazekas

Published as an eBook

Armed with this informative and affordable eBook that you can either print or carry around with you on your laptop, you will be able to photograph the key animal species in this world-famous park from the first day you arrive like an Etosha veteran!

Mario Fazekas, his wife Jenny and their friend Kathryn Haylett have combined their many years of experience and photographic talents to create this handy book. Whether you're a photography novice or a seasoned professional, it will help you make your trip a resounding success.

*Writes Anne Darling of Cognac, France: "...With this eBook you can be sure of finding just the right places at just the right times to take some great pictures. The book is divided into four main sections, each relating to the four key areas of the park. Within each section, the authors cover the different waterholes as well as the camps. Having experience of these areas built up over a long period of time, means that only the areas that give consistently good results have been reviewed – so you know you will not be wasting your time and that your chance of getting good shots is high."*

You can read more about the eBook and purchase it from [Kruger-2-Kalahari](#)
